Overview

- During the first eight months, the broad money supply increased by nearly 6.0%, reflecting strong growth of 8.5% in net domestic credit, while the net foreign assets of the banking system declined by \$15.7mn.
- The Central Bank's net foreign assets dipped by \$2.7mn over the reporting period, as outflows for public sector external debt servicing and the extraordinary payments to cover the foreign currency portion of the Belize Telemedia Limited settlement outweighed inflows of \$309.5mn.
- Net lending of \$191.1mn to Central Government dominated the growth in net domestic credit. Muted by loan write-offs of \$37.0mn, credit to the private sector rose by only \$4.8mn. On the other hand, lending by the five largest credit unions rose by \$27.2mn up to August, compared to \$19.0mn during the same period of 2015.
- The liquidity of the domestic banks continued to grow. Holdings of statutory liquid assets were 81.7% above the required level, and excess cash holdings were more than double the legal requirement.
- In August, the 12-month (rolling) weighted average interest rates on new loans and deposits dipped by one basis point to 9.62% and by three basis points to 1.73%, respectively. As a result, the weighted average interest rate spread broadened by 20 basis points to 7.88%.
- The public sector debt rose by 9.4% during the first eight months of 2016 to reach 89.2% of GDP. The domestic debt grew by \$248.0mn to 21.3% of GDP, and the external sector public debt rose by \$20.0mn to 67.9% of GDP.
- Commodity export receipts fell by 23.0% to \$302.3mn due to lower earnings from all of the major domestic exports except molasses. Gross imports (including electricity) contracted by 3.0% to \$1,327.8mn due to reductions in *"Fuels, Lubricants and Crude Materials"*, *"Export Processing Zones"*, *"Commercial Free Zone"* and *"Oil, Fats and Chemicals"*.
- The Consumer Price Index (CPI) declined by 0.2% in August but edged up by 0.4% for the year-to-date. This increase was mostly attributable to higher fuel prices that boosted prices for *"Transport"* services by 3.0%.

Money and Credit

- In the first eight months of the year, the broad money supply increased by nearly 6.0%, reflecting strong growth of 8.5% in net domestic credit, while the net foreign assets of the banking system declined by \$15.7mn.
- The Central Bank's net foreign assets dipped by \$2.7mn over the eight-month reporting period, as outflows, which included the interest payments in February and August on the 2038 bond and the foreign currency portion of the Belize Telemedia Limited settlement payment in July, just exceeded foreign exchange inflows, sourced mostly from sugar exports, loan disbursements and purchases from banks.
- The net foreign asset holdings of the domestic banks also fell by \$13.0mn partly due to the significant foreign exchange outflows occasioned by Heritage Bank's acquisition of the local branch of First Caribbean International Bank, lower earnings from major exports and disruptions to cross border flows due to correspondent banking issues.
- Net credit to Central Government surged upward by \$191.1mn, and this accounted for almost all the growth in net domestic credit. This borrowing was facilitated by the issuance of additional Treasury notes (\$225.0mn) and Treasury bills (\$15.0mn) to finance half of the outstanding BTL nationalization payments and other budgetary outlays. Over the eightmonth period, the domestic banks invested \$104.6mn in Government securities, and the Central Bank added \$88.6mn worth to its portfolio. In addition, Government increased its use of the overdraft facility at the Central Bank by \$9.1mn to \$72.8mn (89.5% of the

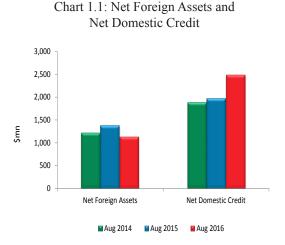

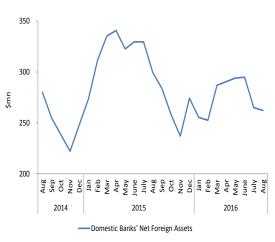

Table 1.1: Central Bank's Foreign Asset Flows

| Central Government | 146.5 | 208.2 |
| Other | 55.6 | 103.2 |

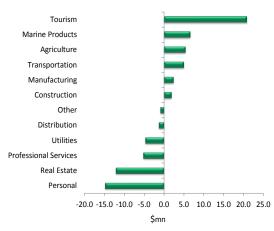

legal threshold), while building up its deposits by \$11.5mn.

- Credit to the private sector rose by \$8.7mn in August and by \$4.8mn over the year-todate. Notable increases were for tourism activities (\$20.8mn), marine production (\$6.6mn) and manufacturing (\$2.4mn). Writeoffs amounted to \$37.0mn and were applied to loans issued for commercial real estate activities (\$15.2mn) and, to a lesser extent, for financial institutions, banana production and commercial construction.
- Compared to the \$19.0mn growth recorded for the first eight months of 2015, net lending by the five largest credit unions rose by \$27.2mn up to August, with notable increases occurring in loans for personal purposes (\$12.0mn), home improvement (\$3.8mn), residential construction (\$3.6mn) and land acquisition (\$3.5mn).
- The statutory liquid assets of domestic banks grew by \$114.5mn to \$1,161.7mn, which was 81.7% above the required level. Concurrently, excess cash reserves increased by \$29.5mn to \$475.2mn, which was double the legal requirement of \$236.3mn.
- At 9.62%, the 12-month (rolling) weighted average interest rate on new loans reflected a one-basis point reduction in August and no change when compared to August 2015. The year-on-year flattening reflected rate declines of 60 basis points on personal loans and 33 basis points on lending for other purposes that offset rate increases of six basis points for residential construction and two basis points for commercial loans.

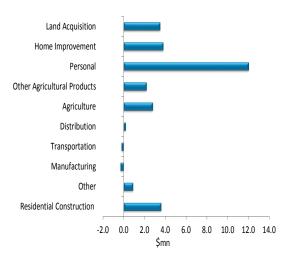

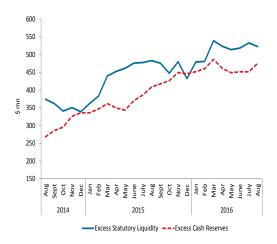

Chart 1.5: Excess Statutory Liquidity

• At 1.73%, the 12-month (rolling) weighted average interest rate on new deposits was down by three basis points in August, and by 20 basis points relative to August 2015. Over the year, rate reductions of 52 basis points on savings/chequing deposits, 13 basis points on time deposits and one basis point on demand deposits outweighed the 36 basis-point hike on the rate for savings deposits. Consequently, the weighted average interest rate spread widened by 20 basis points to 7.88%.

Chart 1.6: Domestic Banks' Weighted (Rolling) Average Interest Rates on New Loans and Deposits

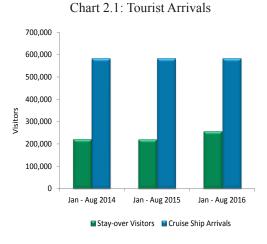

Real Sector Developments

- Output of all major domestic exports, except sugarcane and molasses, decreased significantly over the eight-month period.
- In contrast, stay-over tourist arrivals increased by 16.4% to 256,812 visitors, with air arrivals up by 21.2%, aided by an expansion in airlift capacity, lower international air fares and sustained marketing efforts by the industry. With three cancellations in early August in the aftermath of Hurricane Earl, port calls by cruise ships decreased by 13 for the year to date. However, the use of larger ships maintained cruise ship disembarkations unchanged at 582,344.
- The consumer price index (CPI) fell by 0.2% in August, but rose by 0.4% on average compared to December 2015. The year-to-date increase was mainly due to a 3.0% rise in prices for *"Transport"*, which reflected the pass-through of higher fuel taxes levied in December and February.
- Receipts for domestic exports contracted by 23.0% to \$302.3mn, with declines across all major export commodities except molasses. Marine products and banana recorded the steepest decreases, falling by \$44.0mn and \$19.6mn, respectively.
- Imports (including electricity) dipped by 3.0% to \$1,327.8mn, as increases in "Machinery, Transport and Equipment" (\$58.5mn), "Food, Beverages and Tobacco" (\$13.6mn) and "Manufactured Goods" (\$5.5mn) were outweighed by decreases in all other major categories of goods. The largest declines were recorded in "Fuels, Lubricants and Crude

Materials" (\$44.9mn), "Export Processing Zones" (\$42.6mn), "Commercial Free Zone" (\$17.2mn), and "Oil, Fats and Chemicals" (\$12.5mn).

Sugarcane and Sugar

- There were no deliveries of sugarcane and no production of sugar in August.
- Export volume increased by 25.7% to 123,556 long tons, buoyed by a large shipment of raw sugar to Europe (EU) in August. Receipts, however, declined by 2.2% to \$102.0mn with a fall in sugar prices in the EU market where most (96.5%) of the sugar was sold.

Citrus

- There were no citrus deliveries and no juice production in August.
- The volume of juice exports decreased by 11.7% to 18.2mn ps, while receipts fell by 4.2% to \$52.5mn. More than half of the orange concentrate juices were sold to the United States (US), where prices improved by 19.9% in response to lower orange harvests by large producers such as Brazil, Mexico and the US. In the Caribbean, where 32.1% of orange concentrate juices were sold, the average price dipped by 0.8% to \$3.26 per ps, which was still significantly higher than the \$2.59 per ps received in the US.

Banana

 Banana output dropped by 25.4% to 50,702 metric tons, while receipts declined by 27.2% to \$52.5mn. The decline was the result of the lingering effects of floods in late 2015 and the loss of 16.4% of productive acreage due to U.S. sanctions on the Meridian Group.

 $^{\mbox{\tiny (1)}}$ Imports are valued at cost, insurance and freight

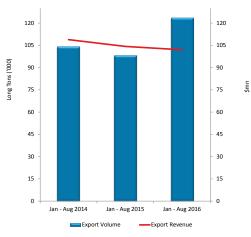

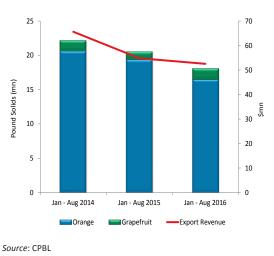

Chart 2.3: Citrus Juice Export Volume and Revenue

Petroleum

- Oil production declined by 15.2% to 308,551 barrels, as the average daily extraction rate fell by 16.0% to 1,265 barrels. Operations were confined to the Spanish Lookout field, since low production and weak international prices made the Never Delay field uneconomical to operate.
- Oil exports fell by 8.2% to 267,169 barrels. Earnings contracted by 39.2% to \$16.7mn, further exacerbated by a 33.8% decrease in the export price to US\$31.33 per barrel.

Marine

- Marine exports decreased sharply by 81.2% to 1.8mn pounds, as a 92.8% reduction in farmed shrimp outweighed increased exports of lobster (33.7%) and conch (52.1%). As a result, receipts declined by 66.4% to \$22.3mn.
- Following major losses in 2015 from the Early Mortality Syndrome, farmed shrimp production remained very low, as a few shrimp farms started field trials in July on new brood stocks that are more resistant to bacterial infection before commencing commercial restocking.

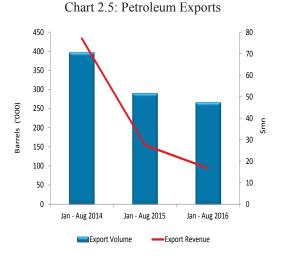

Other Domestic Products

Receipts from other domestic exports declined by 20.7% to \$49.4mn, as lower earnings from papaya (\$5.5mn), orange oil (\$2.9mn) and black-eyed peas (\$1.8mn) outweighed higher earnings from animal feed (\$1.9mn), pulp cells (\$0.6mn) and pepper sauce (\$0.4mn). Papaya revenues contracted by 71.5% to \$6.9mn due to the earlier-than-anticipated closure of the foreign-owned papaya operations in June.

Central Government Operations

No data is available on Central Government operations past June 2016.

Central Government Domestic Debt

- A surge in Central Government's domestic borrowing to meet payments associated with the BTL settlement, the 2038 bond interest payments and other budgetary commitments dominated public debt developments during the first eight months of 2016. Central Government issued new securities totalling \$240.0mn, consisting of \$15.0mn worth of Treasury bills in July and \$225.0mn in Treasury notes. For the latter, \$20.0mn each was issued in February and March, and \$185.0mn was issued in July. Consequently, domestic debt rose by 50.2% from 14.3% of GDP at the end of December 2015 to 21.3% of GDP (\$742.4mn), and its share of total public sector debt increased from 17.4% at the end of December 2015 to 23.8% at the end of August.
- Amortization payments totalled \$1.1mn and included payments to domestic banks, the Fort Street Tourism Village, Debt for Nature Swap and the Belize Social Security Board.
- At the end of August, the share of domestic debt held by the Central Bank fell from 49.7% to 46.3%, with the sale of \$128.8mn worth of Treasury notes and \$22.6mn worth of Treasury bills in the secondary market. The share held by the domestic banks increased from 30.9% to 34.6%, while the share held by non-bank entities fell from 19.4% to 19.1%.
- Interest payments totalled \$11.9mn with \$8.8mn paid to the Central Bank on the overdraft facility and on its holdings of

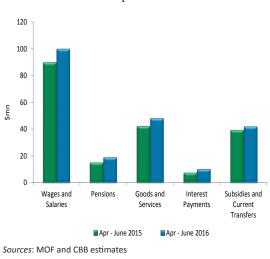

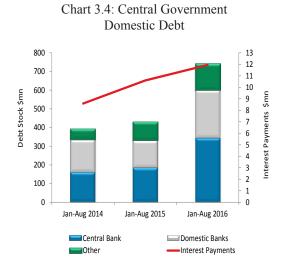

Chart 3.3: Central Government Current Expenditure

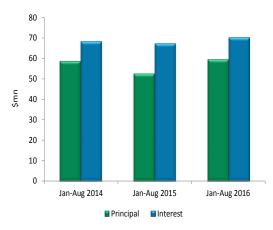

government securities, while the non-bank entities received \$2.5mn.

Public Sector External Debt

- During the first eight months of 2016, the public sector external debt rose by 0.9% (\$20.0mn) to \$2,373.8mn.
- Loan disbursements included \$73.0mn to Central Government (of which 56.7% came from bilateral sources), \$4.5mn to the Development Finance Corporation (DFC) and \$1.2mn to the non-financial sector.
- Central Government loan repayments were shared among multilateral creditors (\$28.2mn) and bilateral creditors (\$28.4mn), particularly the Republic of China (ROC) and the Government of Venezuela.
- Loan repayments by the non-financial public sector amounted to \$2.2mn, while the financial public sector repaid \$0.6mn.
- Interest and other payments totalled \$70.2mn, more than half of which comprised the \$52.6mn paid to the 2038 bond holders. Multilateral lenders were paid \$10.8mn, and \$6.8mn went to bilateral creditors.

Table A.20: Public Sector External Debt 2016

^R - Revised ^P - Provisional

(1) Effective 21 June 2011, the nationalization of Belize Electricity Limited caused an increase (\$23.1mn) in debt, which was matched by Government's acquisition

⁽²⁾ Effective 3 October 2005, loans to BWSL were reclassified as public sector debt as a result of Government of Belize's repurchase of the company.
 ⁽³⁾ International Monetary Fund Special Drawing Rights allocation is included as part of the financial public sector external debt obligation.
