## **2021**

## List of Acronyms and Abbreviations

### **Acronyms:**

BEL	Belize Electricity Limited	EIB	European Investment Bank
BGA	Banana Growers Association	ENDA	Emergency Assistance for Natural Disaster
BMA	Belize Mortgage Corporation	EPZ	Export Processing Zone
BNE	Belize Natural Energy Limited	GDDS	General Data Dissemination System
BPM	Balance of Payments Manual	GPD	Gross Domestic Product
BSI	Belize Sugar Industries Limited	HES	Household and Expenditure Survey
BTL	Belize Telemedia Limited	IBRD	International Bank for Reconstruction and Development/World Bank
CBB	Central Bank of Belize	IDB	Inter-American Development Bank
CDB	Caribbean Development Bank	IIP	International Investment Position
CDC	Commonwealth Development Corporation	IMF	International Monetary Fund
CFZ	Corozal Free Zone	ICT	Information, Communications, and Technology
CFZMA	Corozal Free Zone Management Agency	MLR	Minimum Lending Rate
CIDA	Canadian International Development Agency	MOA	Ministry of Agriculture
CPBL	Citrus Products of Belize Limited	MOF	Ministry of Finance
CPI	Consumer Price Index	NPLs	Non-Performing Loans
CPIS	Coordinated Portfolio Investment Survey	OPEC	Organisation of the Petroleum Exporting Countries
DBFIA	Domestic Banking and Financial Institutions Act	SIB	Statistical Institute of Belize
DFC	Development Finance Corporation	SDR	Special Drawing Rights
EBOPS	Extended Balance of Payments Services	UK	United Kingdom
EEC	European Economic Community	USAID	United States Agency for International Development

### **Abbreviations and Conventions:**

\$	Belize dollar unless otherwise stated
'000	thousands
bn	billion
mn	million
CIF	Cost, Insurance and Freight
FOB	Free on Board
n.a.	not available
n.i.e.	not included elsewhere
R	Revised
P	Provisional

### **Notes:**

1. Since May of 1976 the Belize dollar has been fixed to the US dollar at the rate of US\$1.00 = BZ\$2.00.
2. The 2021 figures in this report are provisional and the figures for 2020 have been revised, unless otherwise indicated.
3. Unless otherwise indicated, the Central Bank of Belize is the source of all tables.

# **ECONOMIC AND FINANCIAL STATISTICS**

## **NOTES TO TABLES**

*Any discrepancies in figures with those appearing in previous issues are due to subsequent revisions.*

### **Table 1: Monetary Survey**

*This table summarises the Central Bank and domestic banks' balance sheets.*

**Net Foreign Assets**: This figure represents the total foreign assets of the Central Bank, domestic banks, and the Government of Belize **less** the demand foreign liabilities of the Central Bank and domestic banks.

**Net Credit to Central Government**: This figure represents the Central Bank and domestic banks' holdings of Government Securities (Treasury Bills, Debentures, and Treasury Notes) **plus** Central Bank and domestic banks' loans and advances to Government **less** Government deposits with the Central Bank and domestic banks.

**Domestic Credit to Other Public Sector Entities**: This figure represents the Central Bank and domestic banks' loans and advances to public sector entities **plus** Central Bank and domestic banks' shareholdings in public enterprises.

**Currency with the Public**: Total local currency notes and coins issued by the Central Bank **less** domestic banks' holdings of local currency notes and coins.

**Demand Deposits**: Total local currency demand deposits **plus** total residents' foreign currency demand deposits **less** Central Government's demand deposits.

**Savings Deposits**: Total local currency savings deposits **plus** total residents' foreign currency savings deposits **less** the Central Government's savings deposits.

**Savings/Chequing Deposits**: From January 1977 to June 2003, these were reported as part of Demand Deposits. As of July 2003, Savings/Chequing is now reported separately.

**Time Deposits**: Total local currency time deposits **plus** total foreign currency time deposits **less** Central Government's time deposits.

**Central Bank Foreign Liabilities long-term**: Include \$56.0mn in new Special Drawings Rights (SDR) allocated at the end of August 2009 and early September 2009. The offset for these is recorded in the Central Banks SDR Holdings. An IMF SDR allocation valued at \$72.6mn was received on 23 August 2021.

## **Table 2: International Reserves**

The Government of Belize became a member of the International Monetary Fund in 1982 with a subscription of SDR 7,200,000, of which SDR 1,320,600 was paid in foreign currency (the Reserve Tranche) and the remainder in Belize dollars made up of currency and non-interest-bearing promissory notes. The Central Bank subsequently purchased the reserve tranche from the Government of Belize.

On 31 December 1993, the Bank's subscription to the International Monetary Fund amounted to SDR 13,500,000, and the Reserve Tranche amounted to SDR 2,913,690.

**Central Bank's Demand Foreign Liabilities:** Include the Central Bank's liabilities to 1) The CARICOM Bilateral Clearing Facility, 2) Deposits by foreign governments and institutions abroad, 3) Holdings of Citicorp's Travellers' cheques (Trust Account) up to 30<sup>th</sup> August 2013.

**Central Bank's Long-term Liabilities:** Include the Central Bank's liabilities to 1) Central Bank Building Bonds, 2) Loan from International Bank of Miami, 3) Loan from Citicorp Merchant Bank Ltd. of Trinidad, and 4) Loan from Citibank Trinidad & Tobago.

**Central Bank SDR Holdings:** Include the new Special Drawings Rights (SDR) allocations from the IMF of \$56.0mn assigned at the end of August 2009 and early September 2009. An IMF SDR allocation valued at \$72.6mn was received on 23 August 2021.

**Domestic Banks' Foreign Assets:** Exclude US\$6.0mn deposited by Central Government, which is reported as part of Official International Reserves in accordance with standard definitions, as of April 2002

## **Table 3: CENTRAL BANK OF BELIZE: Summary of Assets:**

On 1 January 1982, the Central Bank of Belize replaced the Monetary Authority of Belize. All assets and liabilities of the latter were transferred to the Central Bank of Belize. All data relating to the period December 1976 to December 1981 refers to the Monetary Authority of Belize.

**Foreign Assets:** This figure is the sum of the Central Bank's foreign assets **plus** Central Government's holdings of foreign exchange. The counterpart to Central Government's foreign exchange holdings is Central Government's deposits with the Central Bank.

**Foreign Assets Holdings of SDR:** Include the new Special Drawings Rights (SDR) allocations from the IMF of \$56.0mn assigned at the end of August 2009 and early September 2009. An IMF SDR allocation valued at \$72.6mn was received on 23 August 2021.

**Discounts and Advances to Central Government:** This represents the Government of Belize's overdraft facility at the Central Bank.

**Table 4: CENTRAL BANK OF BELIZE: Summary of Liabilities**

**Bankers' Deposits:** Non-interest-bearing deposits held by the domestic banks with the Central Bank.

**Other Deposits:** Deposits by Public Sector entities.

**Foreign Liabilities long-term:** Includes the Bank's liabilities to

- 1) Central Bank Building Bonds,
- 2) Loan from International Bank of Miami,
- 3) Loan from Citicorp Merchant Bank Ltd. of Trinidad
- 4) Loan from Citibank Trinidad & Tobago, and
- 5) IMF-ENDA Facility.

**Table 5: CENTRAL BANK OF BELIZE: External Assets Ratio:**

Section 25(2) of the Central Bank of Belize Act, 1982 requires that *"the Bank shall maintain at all times a reserve of external assets of not less than forty percent of the aggregate amount of notes and coins in circulation and of the Bank's liabilities to customers in respect of its sight and time deposits."*

**Table 6: DOMESTIC BANKS: Summary of Assets**

**Cash:** Includes only local currency notes and coins.

**Foreign Assets:** Balances due from banks and financial institutions abroad **plus** balances due from head Office **plus** holdings of foreign currency **plus** any other foreign assets as reported by the domestic banks.

**Table 7: DOMESTIC BANKS: Summary of Liabilities**

**Deposits:** This figure represents Belize dollar and foreign currency deposits of residents. Deposits of non-residents are included in foreign liabilities.

**Balances due to other local Financial Institutions:** Represent inter-bank loans.

### **Table 8: DOMESTIC BANKS: Breakdown of Local Currency Deposits**

Total local currency deposits represent Belize dollar deposits of residents and non-residents with the commercial banks. Savings/Chequing deposits are included in Demand Deposits.

### **Table 9: DOMESTIC BANKS: Total Deposits by Depositors**

Total deposits represent the sum of local currency deposits **plus** foreign currency deposits of both residents and non-residents.

As of 1991, the Total for Non-Residents is incorporated into the various depositor categories and is, therefore, not separately added.

### **Tables 10,11,12: DOMESTIC BANKS: Liquid Assets/Liquidity**

Refers to figures used in the calculation of statutory liquidity. Average deposit liabilities are the average deposit liabilities on the four Wednesdays ending on the penultimate Wednesday of the previous month. All holdings of liquid assets are monthly averages derived from returns for each Wednesday in the current month.

**Required Minimum Liquidity:** In December 2004, the Central Bank raised the cash reserve and secondary liquid asset requirements from 6.0% to 7.0% and from 19.0% to 20.0%, respectively. In May 2005, the cash reserve and secondary liquid asset requirements were raised from 7.0% to 8.0% and from 20.0% to 21.0%, respectively. In January 2006, the cash reserve and secondary liquid asset requirements were raised from 8.0% to 9.0% and from 21.0% to 22.0%, respectively. In September 2006, the cash reserve and secondary liquid asset requirements were raised from 9.0% to 10.0% and from 22.0% to 23.0%, respectively. In May 2010, the cash reserve requirements were reduced from 10.0% to 8.5%, while the liquid asset requirement remained at 23.0%. In April 2021, the cash reserve and secondary liquid asset requirements were reduced from 8.5% to 6.5% and from 23.0% to 21.0%, respectively.

**Other Local Holdings:** Net balances with locally licensed banks and other financial institutions maturing within 90 days; cheques, and other sight drafts in course of collection in Belize and inland bills of exchange payable within 90 days.

**Foreign Holdings:** Net foreign balances and money at call due within 90 days.

**Other Approved Assets:** Section 14(4)(i) of the Bank & Financial Institutions Act, 1995 and Revised Edition 2000 confer upon the Central Bank the power to declare, after consultation with licensees, any other assets as an approved liquid. In addition, the Central Bank may also declare, by notice in writing, any of the assets described in this

subsection to have ceased to qualify as approved liquid assets. Figures reported under this heading included:

- (i) Government of Belize Treasury Notes;
- (ii) Loans to Government;
- (iii) Loans to Statutory Bodies; and
- (iv) Current portion of some Term Loans, among others.

However, as of 1 January 2013, the new Domestic Banking and Financial Institution Act (DBFIA), section 40 (4) no longer makes provision for the Central Bank to declare these assets: Government of Belize Treasury Notes; Loans to Government; Loans to Statutory Bodies, and current portion of some Term Loans among others as liquid assets.

### **Table 13: DOMESTIC BANKS: Monthly Clearings of Cheques**

The local clearinghouse commenced in October 1978. The Table shows total clearings for each month in the morning and special afternoon clearings up to December 1986. From January 1986 to June 2017, clearings for each month reflected morning clearings only. Since July 2017, cheques have been exchanged among financial institutions using an electronic clearing system known as the Automated Clearing House (ACH).

### **Table 22: INDICATORS OF CREDIT UNION ACTIVITIES**

1. Deposits include non-mandatory share deposits.
2. Beginning January 2009, shares are now separated into categories. The mandatory minimum number of shares required to become a member is reported as share capital. All other shares are reported as share deposits.
3. Effective March 2010, figures are reported in accordance with the PEARLS (Protection, Effective financial structure, Asset quality, Rates of return and cost, Liquidity, and Signs of growth evaluation system.)

### **Table 23: DOMESTIC BANKS: Weighted Average Interest Rates**

All rates are nominal values. Some loans are 'add-on or discount' so that the weighted average rate understates the true cost of borrowing. Nominal deposit rates are overstated to the extent that interest on savings deposits is not paid if the account balance falls below the required minimum balance.

### **Table 24: Selected Comparative Bank Rates and Treasury Bill Rates**

Treasury bill rates for the United States, United Kingdom, and Canada are at or near the end of period. Rates for Belize, Trinidad and Tobago, and Jamaica are period averages.

From 1989 onwards, the Jamaican Bank rate was replaced by the Certificate of Deposit rate, which is regarded as more representative of the rates in force in the marketplace. “None” indicates that no Certificate of Deposit was issued during that month. The Central Bank’s lending rate was reduced by 1.0% to 11.0% effective 26 March 1994 and increased to 18.0% with effect from 1 March 2004. The Central Bank lowered the interest rate on all loans and advances granted to domestic banks, in its capacity as lender of last resort, from 18.0% to 11.0% per annum with effect from 1 February 2011. From 1998 onwards, the MLR rate for the United Kingdom was replaced by the bank rate, which is also the rate used to lend to domestic banks.

### **Table 25: Financial System Structure**

**International banks** are licensed under the International Banking Act. They are authorised to provide banking services to non-residents, entities operating in Designated Processing Zones and Commercial Free Zones, and agencies majority controlled by the Government of Belize and the Belize Social Security Board.

**Domestic banks** are licensed under the Domestic Banks and Financial Institutions Act and are authorised to conduct banking business in Belize.

Since 2014, **non-bank financial institutions** have been referred to the Development Finance Corporation.

Credit union sector data covers all active credit unions.

### **Table 26: Domestic Banks: Financial Soundness Indicators**

**Regulatory Capital to Risk-Weighted Assets:** This is calculated based on the definitions of regulatory capital and risk-weighted assets provided by the Banks and Financial Institutions Capital Requirements Regulations. Regulatory capital is made up of primary and secondary capital.

**Large Loan Exposure to Capital:** This ratio is calculated by dividing large loan exposure by total regulatory capital. Large loan exposure refers to loans equal to or greater than 10.0% of a bank’s primary capital.

**Loan Loss Coverage:** This ratio is calculated by dividing loan loss provisions by the level of non-performing loans. Loan loss provisions represent the sum of specific and general provisions.

**Return on Assets:** This ratio is calculated by dividing annualised income by average assets. Income is annualised based on the calendar year, while average assets are calculated using the most recent 12-month period.

**Return on Equity:** This ratio is calculated by dividing annualised income by average equity. Income is annualised based on the calendar year, while average equity is calculated using the most recent 12-month period.

**Interest Margin to Gross Income:** This ratio is calculated by dividing interest margin by gross income. Interest margin refers to net interest income or interest income **less** interest expense. Gross income refers to net interest income **plus** non-interest income.

**Liquid Assets:** Assets that are freely and readily convertible within 90 days to meet a demand for cash.

**Short-term Liabilities:** Liabilities which are due within 90 days.

### **Table 27: International Banks: Financial Soundness Indicators**

Refer to the section for the domestic banks' FSIs, except for the following:

- Liquid assets are freely and readily convertible assets within one year.
- Short-term liabilities are liabilities which are due within one year.

### **Table 28: Credit Unions: Financial Soundness Indicators**

Data not available prior to 2009.

**Net Institutional Capital to Total Assets:** This ratio is calculated by dividing net institutional capital by total assets. Net institutional capital consists of reserves, retained earnings, and provisions and nets out NPLs based on the period of delinquency.

**Total Capital:** Consists of share capital, reserves, current year profit/loss and general loan loss reserves.

**Loan Concentration to Total Loans:** This ratio is calculated by dividing large loan concentration by the total loans for the entire credit union sector. Large loan concentration refers to the sum of the twenty largest loans for each credit union.

**Liquid Assets:** Aggregated assets maintained by credit unions that are freely and readily convertible within 1 year, to ensure that they can meet their commitments with respect to loans and withdrawals of deposits.

**Liquid Assets Requirement:** Every credit union shall maintain a minimum aggregate holding of approved liquid assets, which on average shall be equivalent to at least ten per cent (10%) of shares, deposits and current borrowings.

**Return on Assets:** This ratio is calculated by dividing annualised net income by average assets. Net income is annualised based on the credit unions' financial year ending March 31st, while assets are averaged for the most recent 12-month period.

**Return on Equity:** This ratio is calculated by dividing annualised net income by average equity. Net income is annualised based on the credit unions' financial year ending 31 March, while equity is averaged for the most recent 12-month period.

### **Table 29: GOVERNMENT OF BELIZE: Revenue and Expenditure**

The government's fiscal year runs from 1 April to 31 March.

Note that Capital Revenue, Grants, and Interest Expenditure from FY1983/84 to FY1996/97 are estimates obtained from the IMF Article IV Consultation reports.

The Primary Balance for FY1983/84 to FY1996/97 was calculated using the Interest Expenditure figure recorded in the IMF Article IV Consultation reports of 30 May 1989, 1 December 1993, and 3 August 1998.

### **Table 31: CENTRAL GOVERNMENT: Disbursed Outstanding Domestic Debt**

Treasury bills holdings of the Central Bank and domestic banks are reported as the discounted values, while "Other" includes holdings by non-bank entities as well as the discounts of all holdings.

### **Table 33: PUBLIC SECTOR: Disbursed Outstanding External Debt**

Effective 1 March 1992, BTL was reclassified as a private sector entity, and this reduced the loan balance of the external commercial banks.

Effective 27 October 1999, BEL loans were reclassified as private sector debt due to their full privatisation.

The outstanding external debt of BEL and BWS (formerly WASA), guaranteed by the Government, remains a contingent liability of the Central Government.

USAID debt was reduced by BZ\$17.2mn due to the Debt for Nature Swap Agreement that was signed on 2 August 2001 but implemented on 30 November 2001.

BMC is the issuer of DFC/North America Securitization loan through the Bank of New York, which was recorded as a contingent liability of Central Government. However, in accordance with GDDS guidelines, this transaction is now included as part of the public financial sector stock of external debt obligation.

IMF SDR Allocation of SDR \$17.9mn is included as part of the financial public sector external debt.

The nationalisation of BEL on 21 June 2011 caused the increase in debt, which was matched by GOB's acquisition of assets of equal value.  
CDC loans were fully paid in October 1998.

CIDA loans were fully paid in November 1990.

Effective 5 November 2021, the Government purchased, redeemed, and cancelled the outstanding 2034 US Dollar Bond (US\$552.9mn). Belize financed this 2034 US Dollar Bond refinancing operation with a new commercial 'blue loan' (US\$364.0mn).

### **Table 37: Visible Trade**

Gross imports CIF exclude electricity imports from Mexico.

Since 2002, the recording of CFZ sales started, and the figure has now been included as part of total exports FOB.

As of 2008, the Statistical Institute of Belize no longer records Retained Imports because accurate measurement has become increasingly complex with establishing the CFZs and EPZs.

Differences in the computation of the merchandise trade and visible trade balances result from imports CIF by visible trade and the use of imports FOB by merchandise trade.

### **Table 38: Composition of Domestic Exports**

Starting in 2004, molasses exports reflect the value of sales as reported by the industry and not shipments as reported by the SIB.

Starting in 1999, citrus juice exports reflect the value of sales as reported by the industry and not shipments as reported by the SIB.

Petroleum exports for 2006 and 2007 reflect actual sales as reported by BNE; after that, data reflects Geology Department's numbers as reported by the SIB.

Export values for banana for the years 2007 and 2008 were adjusted to remove quota tariff costs. Starting in 2003, export values reflect actual sales as reported by the industry.

Other exports include Belize's nontraditional exports, including pepper sauce, oranges, orange and grapefruit oil, red kidney beans, black-eyed peas, pulp cells, animal feed, cornmeal, and sawn wood.

Figures may not add up to the annual report's total annual figures due to rounding off.

### **Tables 39, 40, 41, 42 and 43: Gross Domestic Product**

All historical data, including 1980-1989 with the previous base year 1984, has been revised to reflect 2000 prices.

### **Table 45: Consumer Price Index**

There were no surveys in 1981 and 1982. The base year was changed to 1990, and the number of items in the basket was increased to better reflect consumption patterns. The figures from 1980 to 1989 are based on the revised basket for the 1990 base year.

The base year was again changed to February 2011; then, CPI started being produced every month.

The base year was changed to October 2020. Historic quarterly CPI for 1990-2020 were rebased to October 2020 prices. Miscellaneous Goods and Services was disaggregated into the following two categories:

- a) Personal Care, Social Protection and Miscellaneous Goods and Services.
- b) Insurance and Financial Services

### **Table 46: Balance of Payments**

Visible Trade data for 1997 and 1998 include activities of Export Processing Zone, Commercial Free Zone, and Bonded Warehouses.

Starting in 2011, the compilation of Belize's balance of payments is based on the BPM6 format; the previous years' compilations were based on BPM5 (1999-2010) and BPM4 before 1999.

The title 'Current Transfers' was changed to Secondary Income in 2011. The sub-heading 'Overall Balance' was excluded from the table in 2011.

### **Table 47: Extended Balance of Payments Services (EBOPS)**

Extended Balance of Payments Services Classification (EBOPS) was compiled in BPM6 format.

**Table 48: International Investment Position (IIP)**

The assets do not include the Bank of International Settlements (BIS) data.

The liabilities do not include the IMF's Coordinated Portfolio Investment Survey (CPIS) data.
